### *Directions for Completion*

Where alterations have been made to the course as a result of which the overall length is either increased or decreased, affiliated golf clubs are requested to complete this form and return it to the Golf Union of Wales along with:-

- A scorecard of the course before the alteration.
- An updated certificate of measurement for the altered course/hole(s)

It is recommended that the re-measurement should be done by a person competent and experienced in the use of measuring equipments, as required by the CONGU<sup>®</sup> Unified Handicapping System, Effective 1 January 2016, Clause 11, Appendix A.

The length of each hole of the altered course should be recorded on the application form, along with full details of any other changes made to the hole e.g. hazard changes or introductions.
