

### Women in Golf Charter Pledge

Radyr GC is committed to providing an inclusive culture across all elements of what the club provides its members, guests and staff.

In partnership with Wales Golf and The R&A, Radyr Golf Club will commit to the development of the sport and in particular focus on making our club a place where the next generation of female golfers are welcomed in to the club. The club also recognises the need to be inclusive at every level which includes the way in which the club is governed through its committee.

With the vision of 'Your Capital Club' Radyr GC is proud to support both The R&A and Wales Golf with its ambition to grow female golf in Wales and throughout the world.

In support of the Women in Golf Charter Radyr Golf Club will:

- Ensure that the clubs governance is inclusive and provides opportunity for all members to be part of the clubs decision making structures
- Ensure Women and Girls participation and development is high on the agenda when recruiting new members and is written in to future strategic plans
- To work with Wales Golf to deliver New2Golf projects that focus on the development of Women and Girls golf
- Provide a clear structure for beginner women and girls to start and progress within the membership at Radyr GC
- To develop a structure that supports the PGA professionals in delivering the clubs development initiatives

Radyr GC are committed to achieving the above pledge and will continue to work with Wales Golf to encourage a more inclusive culture at the club.

  
Rob Mullen-Jones  
Club Captain 2019

  
Annette Campbell  
Ladies Captain 2019
